- A. No. That would certainly precipitate a war, they think, and consequently the direct use of force is ruled out.
- 2. Q. Will Yugoslavia automatically open diplomatic relations with a Free Greek Government?
 - A. I do not know. The final decision, however, will be taken in the Polithere in Mascow.
- Q. Would Ingoslavia have co-operated with the United Nations on Greece if the commission's report had not implicated them?
 - A. This is a decision which would not be reached by the Ingeslav Foreign Office, but by the Polithure. The U.S. has weakened its case in Greece with the Ingeslav people by failing to answer the war-mongers' charge.
- h. Q. Where is the Free Greak radio?
 - A. I bolieve I heard somebody say that it is in His.
- 5. Q. Will an independent Macadonia be established?
 - A. Before that can happen the Yugoslav Communists will insist that economic power in Eulgaria be concentrated and that the Communists there consolidate their hold over the country. There will be a publicity campaign in advance to justify Yugoslavia reaching an agreement with Eulgaria over a free Macedonia.
- 6. Q. Have you seen any evidence of international brigades toing recruited for combat in Greece?

A. I have seen no trace or hint of international trigades. Skilled and politically conscious workers, however, are being brought in from both Germany and Italy as repatriates.

I heard discussions of this among high-ranking party members. These workers from Italy and Germany are not for Iraces, but to work in Yugoslav industry. The vame reason is behind the intensive repatriation program now being carried on in Canada and the US. The Yugoslave hope to get not only skilled workers but also dollars with which to buy machinery from these people.
